# MOL Aero 22

## piston-aircraft engine oil

MOL Aero 22 is aviation engine oil produced from highly refined base oils and a complex additive system having ashless detergent-dispersant properties. Due to its special composition it meets the unique requirements of aircraft piston engines.

## Application

| | |
|---|---|
| | Piston engines of aeroplanes and helicopters |

## Features and benefits

| | |
|---|---|
| High viscosity | Reduces oil flowback characteristics of radial engines |
| Ashless additives | Deposit formation at high temperature spots is reduced |

## Specifications and approvals

| | |
|---|---|
| | Viscosity grade: SAE 60<br>*GOST 21743-76*<br>API SC<br>MIL-L-22851 |

## Properties

| Properties | Typical values |
|---|---|
| Density at 15°C [g/cm3] | 0,894 |
| Kinematic viscosity at 40°C [mm2/s] | 275,5 |
| Kinematic viscosity at 100 °C [mm2/s] | 23,1 |
| Viscosity index | 101 |
| Pour point [°C] | -24 |
| Flash point (Cleveland) [°C] | 283 |

The characteristics in table are typical values of the product and do not constitute a specification.

## Storage and handling instructions

Store in the original container in dry, properly ventilated area.
Keep away from direct flame and other sources of ignition.
Protect from direct sunlight.
During transport, storage and use of the product follow the work safety instructions and environmental regulations relating to mineral oil products.
For further details please read the Material Safety Data Sheet of the product.
Engine oils are finished lubricant formulations where additional additives are unnecessary and may result in unforeseeable adverse effects.
The manufacturer and distributor shall not be held liable for such possible damages.
In the original container under the recommended storage conditions: 60 months
Recommended storage temperature: max. 40°C

Manufactured and distributed by MOL-LUB Ltd., 2931 Almásfüzitő, Fő út 21.
